This is a public conduct record. Entries identify a marketplace handle and its platform only. They contain NO personally identifying information: no legal name, no address, no contact details, and nothing about who filed a report. Every entry is a report backed by what was checked, not a verdict, and any entry is corrected or removed if it does not hold up. A handle can dispute its entry at any time.

Findings and evidence

1 observation across 1 dated section. Sources that did not corroborate the report are shown too, and labelled as such.

CORROBORATING SOURCE

eBay + Whatnot store cross-check

This handle lists at least 10 cards in Trophy Grading Company TGC 10 Authentic slabs across eBay as pasttreasures-89 and Whatnot as pasttreasures89, including bulk commons such as a Paldean Fates Pikachu 018/091 and an Iron Crown ex. The volume across both platforms marks it as a standing reseller of the fake-grade product rather than a one-off flip.
